

# CONTINUOUS SYSTEM SECURITY

## softgarden e-recruiting GmbH / Recruiting-Web-Plattform

HiSolutions AG hereby confirms the successful completion of a penetration test of “recruiting web platform” of softgarden e-recruiting GmbH from 22 September to 10 October 2025. The pure test time spent on the examination were 17 person-days (plus the time spent on report preparation, quality assurance and project management). The security review covered the application modules Just-Hire, Bewerber-Front-End (web application and additional web services), RatingService, Empfehlungsmanager, Karriereseite Pro, Agency-Modul, Onboarding-Modul, MediaShop and IdP-Front-End.

The objectives of the security review included identifying vulnerabilities and checking for unauthorised access. The application was examined in particular for the risks listed in the OWASP Top 10. The review did not identify any vulnerabilities with a severity rating of ‘medium’ or higher. Some of the findings were fixed during the test period and their successful resolution was verified by HiSolutions.

HiSolutions AG is a security service provider for penetration tests accredited by the German Federal Office for Information Security (BSI) and a leading German consulting company for Corporate Security, Business Continuity, Information Security and System Security.
